

**IMPLEMENTATION SCHEDULE  
FY 2007 WATER QUALITY ANALYSIS FEE**

**Community Public Water Supplies**

- \$2.60 per service connection or \$40,000, whichever is less

**Community Public Water Supplies that Purchase Water**

- \$2.60 per service connection or \$40,000, whichever is less

**Non-Transient Non-Community Public Water Supplies**

- \$2.60 per service connection or \$40,000, whichever is less

**Definitions**

**Community Public Water Supply** - A water supply serving a residential population with at least 15 service connections and/or 25 people more than 60 days per year.

**Non-Transient Non-Community Public Water Supply** - A water supply serving a non-residential population of at least 25 of the same people more than 60 days per year. (Examples: industries, schools, etc.)

**Service Connection** - Homes, businesses, etc. that are individually provided water service by the public water supply. The number of service connections for non-transient non-community public water supplies will be determined by dividing the population served by 3. (Census data indicates that the average number of people per household in Mississippi is 3.)

**NOTE:** This water quality analysis fee is authorized by Section 41-26-23 Mississippi Code of 1972, Annotated. The effective period of this fee is 1 July 2006 to 30 June 2007.
